PLANTING SEASON

DEFENDER⁺
VOLE
GUARD

FASTER TREE GROWTH INCREASED SURVIVAL RATES

The unique staking and securing system of the TREE DEFENDER⁺ ensures planting is done simply and swiftly whilst maintenance can be carried out with the same level of simplicity and speed. Manufactured from environmentally responsible and 100% recyclable UV stabilised polypropylene the TREE DEFENDER⁺ has a built-in radial top lip to minimise abrasion to the tree stem and a perforated line to ensure the shelter splits open as the girth of the tree increases in size.

KEY FEATURES

- Manufactured from UV stabilised polypropylene
- Harmless to the environment
- Durable twin-wall construction
- Designed to be transported flat pack
- Estimated life span 5 - 7 years
- 100% recyclable
- Radial top lip to minimise abrasion to tree stem
- Unique 'no ties' securing system
- Perforated line allowing the shelter to split open as the girth of the tree increases in size

YOUR TREES ARE OUR FUTURE

As well as providing protection from browsing animals, accidental drift from herbicide spraying and damage from mechanical weeding, TREE DEFENDER⁺ ensures your trees, shrubs and plants benefit from the naturally created microclimate within the shelter for safe, quick, and stronger growth.

We offer a strong and secure product with our extensive die cutting knowledge and new welding technology. We are constantly looking to the future, researching, and investing in biodegradable material technologies to help care for our environment.

FORESTRY

Whether you are looking for protection from rabbits, hare, muntjac, deer, vole, from herbicide spray or wanting to create an enhanced growing environment through a microclimate, the TREE DEFENDER⁺ is the perfect solution to a successful woodland or forest establishment.

LANDSCAPING

With a wide range of tree and shrub protection products, TREE DEFENDER⁺ can aid the establishment and protection of large planting schemes, rural hedge rows, mixed planting, and smaller specialised projects.

VITICULTURE

The TREE DEFENDER⁺ whilst establishing a microclimate within the shelter improving the growing environment for the vine it also helps to protect against browsing animals, mechanical weeding machinery and herbicide spray.

FRUIT

Enjoy flexibility in site maintenance whilst your fruit trees are protected from browsing animals, herbicide spray drift and mechanical weeding machinery. The TREE DEFENDER⁺ is the perfect solution for any fruit growing area.

VINE SHELTER

- Heights - 40cm, 50cm & 60cm
- Cross section size - 7.5cm x 7.5cm

VOLE GUARD

- Heights - 20cm
- Cross section size - 5cm

BUNDLE QUANTITY - 10

SUPPORT LIP

The fold over lip gives extra strength and stability whilst allowing for the tree to grow without damage or abrasion to the stem.

PERFORATED SIDE SEAM

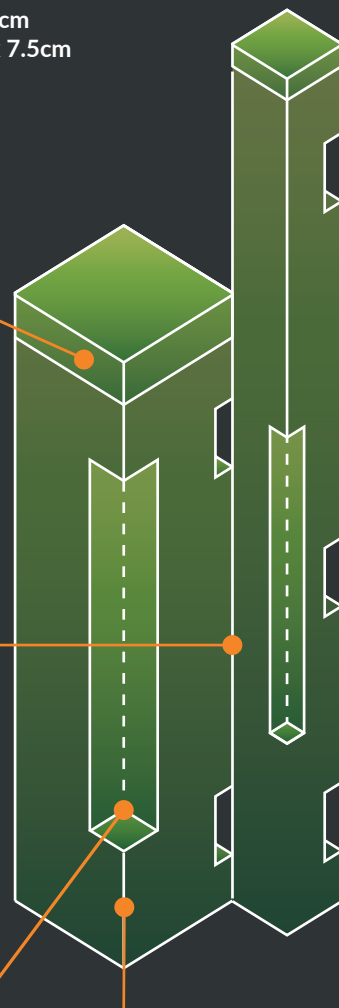

Allows for the TREE DEFENDER⁺ to split open when the tree outgrows the size of the shelter. Up to that time the tree is fully guarded.

WOODEN STAKE POCKETS

Simple pop in slots to varying stake sizes to help give vertical growth support.

SEALED CORNER CREASING

Heat sealed vertical crease, creating better reverse crease definition.
